

Fast-track your **SAP landscape** divestitures and carve-outs

Navigate complex ERP transformations and business-critical SAP systems landscape optimization confidently with Kellton. We're one of the most trusted SLO partners worldwide, and help leading enterprises accelerate their System Landscape Optimization (SLO) journey across all their core SAP systems - with minimal disruption to legacy business operations.

Kellton ensures a faster business transformation by aligning the legacy IT landscape to the optimized business processes.

Typical customer SAP scenarios		
As-is situation	Scenario	Vision
	Merger & Acquisition Acquisition, joint venture	
	Divestitures Business area will be organized as independent company, subsidiary is spun off, part of company will be sold	
	Corporate restructuring Change organizational unit in SAP landscape accordingly	
	Business process optimisation Adapt processes in SAP system, unify accounting, master data cleansing	
	Consolidate IT landscape Merge systems, harmonize system landscape, provide cross-system	

Our SAP SLO offerings

We are one of the few certified SAP SLO transformation partners performing system landscape optimization to streamline divestitures and carve-outs in the existing SAP landscapes. Our specialized SLO systems and achieve smooth transitions by leveraging best-in-class SLO tools, SAP activate methodologies, and proven technologies. At maximum data transparency across business-critical systems in near-zero downtime using our SLO capabilities. We can help you take care of end-to-end SLO projects, all the way from initial preparation to go-live and support.

Unlock greater agility by taking full advantage of expert SLO services:

Implementing divestitures and carve-outs in SAP landscapes

Technology modernization

Plant restructuring

Business and system consolidation

Data harmonization, conversion, and migration

System analysis and comparison

System preparation for S4/HANA migration

Our approach to SAP SLO transformation

Discover & Prepare	Explore	Realize	Deploy	Run
Project Preparation & Planning	Blueprint & Build	Quality Cycles	Dress Rehearsal	Go-Live
- Requirement analysis, current system assessment & dependency analysis - Project planning and development of SAP roadmap strategy for transition - Initiation of the resource on-boarding procedures	- Business blueprint for reviewing existing configuration and data in the SAP system - Kellton configure & execute DM & LT process in snadbox/Trial system (Production Copy) - Approval/Sign off on blueprint with the customer	- Three iterations to finalize the blueprint & implementation strategy - Integration testing and UAT to verify proper execution of the entire system. - Simulation of cutover plan prior to the final	- Acceptance testing to check readiness of the cutover - Prepare production environment and executing LT procedures - Implementation of cutover activities to production environment	- Validating the cutover and performing go-live phase - Maintenance of SAP systems through hyper-care support - Production support and continuous improvements in the system

SI Group

Success stories

Helping a US-based petrochemical leader become acquisition-ready

Delivered a perfectly harmonized SAP landscape and hyper-connected manufacturing processes via efficient data unification while enhancing overall equipment effectiveness with a 75% reduction in manual processes for a leading US-based petrochemical, glass, and gases manufacturer.

SAP landscape carve-out for the chemical manufacturing giant

A large chemical manufacturing giant generating annual revenues of more than \$2 billion wanted to rightsize its backend operations. We enabled seamless SAP landscape transformation, with a reduction in change management timeframes by 75%, and ensured smooth transition with zero downtime.

“I wanted to thank you for all your efforts for Project strike. I really appreciate all the guidance Kellton provided to the team along with the flawless execution of the SLO tool. I hope to work with you again and keep in touch.”

David Devich,
CIO, Momentive Technologies
