Unlock innovation with Azure

Modernize your data estate to discover AI-powered insights that help you grow your business. Azure brings your data together, helping you quickly build apps, drive rich customer experiences, and seamlessly integrate generative AI into your daily workflow.

Azure solutions include:

- 

Windows Server on Azure to migrate existing systems
- 

Azure Database for PostgreSQL for new insights and high availability
- 

Linux on Azure to bring Linux to the cloud
- 

Azure VMware to integrate your VMware environments

 <p>75%</p>	<p>complete the process of new compute, storage, or other capacity faster ³</p>
 <p>65%</p>	<p>improvement in database performance ³</p>
 <p>75%</p>	<p>say Azure reduced barriers to AI and machine learning adoption ³</p>
